 - **Design:** Canva
 - **Other Tools:** Git, GitHub, Vite
-

PROJECTS

HyperTutor – AI Learning Platform *(Currently working on)*

- HyperTutor is more than just a chatbot. It's a personalized AI study assistant that helps users:
 1. Track their learning goals

- 2. Break complex topics into digestible lessons
- 3. Generate daily study plans
- 4. Offer instant explanations, summaries, and code help
- 5. Log progress and build long-term retention
- 6. Integrate with coding platforms and developer tools
- 7. Adapt to learning style and pace
- The Mission:
- To revolutionize how developers (and curious minds) learn — from reactive Googling to proactive mastery.

EgocentricFolklore16 Portfolio Website (2025)

- Designed and coded a fully responsive personal portfolio showcasing design and development work.
- Implemented hero animations.
- Enhanced user experience with intuitive navigation, interactive UI elements, and cross-device compatibility.

Savor Restaurant Website(2024)

- Created a slick and classy responsive restaurant website.
- Reservation Functionality
- Multi-page website.

Tasty Bite Website(2024)

- Responsive across all devices.
 - Implemented friendly colors on the website.
 - Add-to-cart functionality
 - Smooth animations applied across the website.
-
